

BrightBean Terms of Service

Prepared for Google OAuth verification and YouTube API Services compliance review

Application: BrightBean Social Studio

Production domain: studio.shopauth.cloud

Prepared: August 3, 2026

This supporting PDF is a point-in-time snapshot. The live public policies and the deployed application are authoritative for the review.

These Terms govern your access to BrightBean Social Studio at studio.shopauth.cloud. By creating an account, connecting a social profile, or using the service, you agree to these Terms and our Privacy Policy.

1. Service operator

This BrightBean Studio deployment is operated by Piotr Kwiatkowski, an individual using ShopAuth Cloud as the service name, at ul. Ludowa 9A, 05-816 Michałowice, Mazowieckie, Poland ("we", "us"). Questions about these Terms may be sent to admin@shopauth.cloud.

2. Eligibility and accounts

- You must be at least 18, or legally able to enter into this agreement in your jurisdiction.
- You must provide accurate account information and keep login credentials secure.
- You are responsible for activity performed by your account, team members, API keys, and configured agents.
- You must notify us promptly if you suspect unauthorized access.

3. Connecting social accounts

You may connect only accounts and business assets that you own or are authorized to manage. You authorize BrightBean Studio to use the permissions you approve to perform requested or scheduled actions, including publishing, analytics, comment management, and messaging.

Your use of a connected service remains subject to that platform's terms, policies, permissions, rate limits, review requirements, and technical restrictions. We do not control and cannot guarantee the availability of third-party APIs.

If you connect YouTube, your use of the integration is also subject to the [YouTube Terms of Service](#), the [YouTube API Services Developer Policies](#), and Google's applicable privacy and API-services terms. You may revoke BrightBean Studio's access from the service or through [Google's third-party connections settings](#).

4. Your content and instructions

You retain ownership of content you upload or create. You grant us a limited, non-exclusive license to host, process, reproduce, and transmit that content only as needed to provide, secure, and support the service.

You are responsible for reviewing drafts, captions, media, recipients, target accounts, and publication times before authorizing publication. AI-generated suggestions may be inaccurate, incomplete, or unsuitable; they require human review. You are responsible for the final content and its compliance with law, advertising rules, intellectual-property rights, and platform policies.

5. Acceptable use

You must not use BrightBean Studio to:

- Publish unlawful, deceptive, infringing, harassing, discriminatory, or malicious content.
- Send spam, conduct unauthorized surveillance, impersonate others, or manipulate engagement.
- Access or message people without a lawful basis or required consent.
- Circumvent platform permissions, rate limits, reviews, safeguards, or account restrictions.
- Probe, disrupt, reverse engineer, or compromise the service or another user's data.
- Share access tokens, secrets, or API keys with unauthorized parties.
- Use YouTube features to download media without authorization, scrape data, create surveillance profiles, or artificially inflate views, likes, comments, subscribers, or other engagement.

6. Automated actions and messaging

Automation rules and AI agents act according to the permissions and instructions configured by authorized workspace users. You must monitor automated activity, provide appropriate human oversight, and comply with platform-specific messaging windows, disclosure rules, and restrictions. We may pause automation that threatens users, connected accounts, or service integrity.

7. Free tier, subscriptions, and payment

BrightBean Studio uses a freemium model. Some functionality is available without a paid plan, while additional Intelligence features and usage allowances may require a paid monthly subscription. The applicable plan, price, billing currency, included allowances, and taxes are displayed before checkout.

Paid subscriptions are processed by Stripe and renew for successive monthly billing periods until canceled. You can manage or cancel an active subscription through the billing portal. Unless the checkout or mandatory law states otherwise, cancellation takes effect at the end of the current paid billing period. Statutory consumer, withdrawal, refund, and complaint rights are not limited by these Terms.

8. Intellectual property

BrightBean Studio, its software, interface, branding, and documentation are protected by intellectual-property laws. Except for rights expressly granted in these Terms, we and our licensors retain all rights in the service. Feedback may be used to improve the service without obligation to you.

9. Availability and changes

We may update, add, remove, or suspend features, including when a third-party API changes. We aim to operate the service reliably, but do not promise uninterrupted or error-free availability. Scheduled posts and messages can fail because of invalid permissions, platform outages, content rejection, rate limits, or other external conditions.

10. Suspension and termination

You may stop using the service at any time and may request deletion as described on the [Data Deletion page](#). We may restrict or terminate access where reasonably necessary to address a security risk, legal requirement, non-payment, material breach, abuse, or platform-policy violation. Where practical, we will provide notice and an opportunity to correct the issue.

11. Disclaimers

To the extent permitted by law, the service is provided “as is” and “as available”. We disclaim implied warranties of merchantability, fitness for a particular purpose, non-infringement, and guarantees about reach, engagement, revenue, platform approval, or social-account status.

12. Limitation of liability

To the extent permitted by law, we are not liable for indirect, incidental, special, consequential, or punitive damages, lost profits, lost opportunities, loss of data, or actions taken by a connected platform. Nothing in these Terms excludes liability that cannot legally be excluded or limits mandatory consumer rights.

13. General terms

If part of these Terms is unenforceable, the remaining provisions continue in effect. Failure to enforce a provision is not a waiver. You may not transfer this agreement without our consent. The laws applicable at the operator’s place of establishment govern these Terms, subject to mandatory consumer protections and conflict-of-law rules.

14. Changes to these Terms

We may revise these Terms when the service or legal requirements change. Material changes will be announced by a reasonable method. Continued use after the effective date of an update means you accept the revised Terms.
